BLUE-ADAP-6800-K Bluetooth Adapter

Power Functions

Power On: Press and hold the top button with force for 2 seconds until the blue light is on.

Power Off: Press and hold the top button with force for 6 seconds until the red light flashes twice and turns off. It will also power off itself automatically after being connected to any power source using the USB cable.

Clear pairing history: With the Bluetooth adapter in off state, press and hold the top button until the light alternately flashes red and blue quickly. Keep holding it until it flashes red twice and powers off. *Please do not do this unless you know what you are doing.*

- Standby time per charge: 60 hours
- Working time per charge: 8 hours

USB Port
